

# Special Builder's Package

*For Serious Builders Only*

Lamborghini

Diablo 6.0 Replica

## Serious Builders Only

“Having built numerous vehicles, I can only wish that I had this type of package when I was building my cars. This is a complete package currently at a stage that will literally eliminate years from completing your dream car. Over three years of work have gone into this build.”

*Dale Van Blokland*

Consider what you need for a quality build.

- ✓ Chassis
- ✓ Engine
- ✓ Transmission
- ✓ Wheels
- ✓ Body
- ✓ Interior

Lets discuss each one.....

# Chassis

This package includes an American Super Cars Chassis. This chassis replicates the original Lamborghini chassis. No 20 year old donor cars. The best part is you have complete access to the chassis before the body is permanently mounted.

Custom made fuel tank

Air lift system installed

# Engine and Transmission

1994 Corvette LT1 383 Stroker (0 miles)

Audi 5000 transmission complete with linkage

# Wheels

6.0 honeycomb replica wheels, 9" on front and 12.5" on back. Michelin Pilot Sports 235/40 ZR18's on the front and 335/30 ZR18's on the rear.

13" Corvette drilled and slotted disk brakes on all 4 wheels.

# Body

IFG 6.0 VT Body blocked and primed. Windows and tracks are already installed in doors.

# Body

Mirrors have been assembled with motors

Door skins have locks installed

Gas Lid fully assembled and functional

# Interior

Carbon fiber dash with recessed gauges. Large VDO backlit gauges

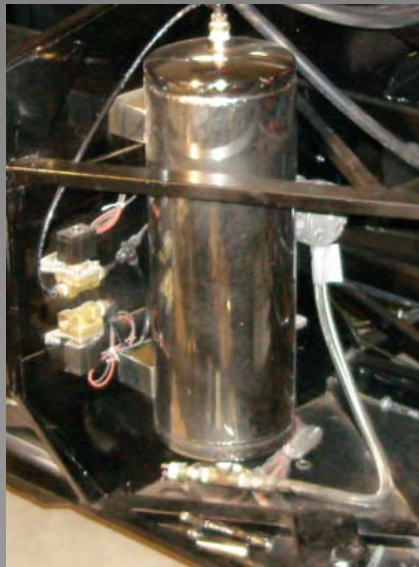

Steering column has drop assembly

# Interior

Light bar with lights

On board tank for air lift

Functional OEM heater controls that operate new Vintage A/C unit

**Price:** \$35,000

**Summary:**

*This builders package contains everything you need to complete your dream. At the current stage, you will get to select your own color choices and actually complete the build to your specifications.*

*All of the major suppliers of Replica kits are no longer in business making it nearly impossible to find a quality kit.*

*This is a rare opportunity to have everything you need and all “the heavy lifting” has already been done.*

*If you have ever dreamed of building a replica of one of the most exotic cars on the market, **don't let this opportunity pass!***

*The car is located in Fresno, California*
